The overall objective of the Symposium is to provide a renewed vision of knowledge on husbandry and milk production, technology, chemistry, physics, microbiology and nutrition and to highlight the significance of markets and appropriate policies as they have evolved since 2011. The event is addressed to scientists and other professionals involved in the sheep’s, goats’ and other non-cows’ dairy sectors including milk producers, dairy processing industry, trade associations, academia, research institutes, and governments. The Symposium will be a platform for exchange of knowledge and information among international experts in the field.

Scientific Committee

Photis Papademas - Chair, Cyprus University of Technology (CY)
Effie Tsakalidou - Agricultural University of Athens (GR)
Yvette Soustre - French Dairy Board (FR)
Joerg Seifert - International Dairy Federation (IDF)
Mertxe de Renobales - Universidad del Pais Vasco (ES)
Stefania Carpino - CoRFlaC, Dairy Research Centre (IT)
Adin Shwimmer - Israel Dairy Board (IS)
Dewi Apri Astuti - Bogor Agricultural University (ID)

Topics

Session I: Policies, Economics and Social Aspects
Session II: Product Characteristics, Nutritional Value and Health Impact
Session III: Safety, Quality and Analysis
Session IV: Novel Products and Emerging Processing Technologies
Parallel Sessions: Milk Production Strategies/Production and Processing of Camel Milk
